What is plan management?

Plan management is when you use a plan manager to manage your budget, pay your invoices, and give you independent guidance.

My Plan Manager's team of NDIS experts can help you get the most out of your NDIS plan and save you time and hassle.

How do I get plan management in my NDIS plan?

To work with My Plan Manager, you need to have an NDIS plan which includes 'Improved Life Choices' (ILC). This covers all plan management fees so there's no cost to you.

About Us

My Plan Manager is the largest and one of Australia's first plan management services.

We're Australia-wide

Whether you live in the city or the outback, from Perth to Brisbane, Darwin to Hobart, we can manage your plan.

Empowering People With Disabilities

Our mission is to create an inclusive Australia where everyone has the opportunity to reach their full potential. For people with disabilities, this means having access to the widest choice of NDIS providers to suit your needs and complete control over your budget and finances.

Does your plan include Improved Life Choices?

What is Improved Life Choices? This is the funding in your NDIS plan for financial management, and this allows you to use a plan manager. If you don't currently have Improved Life Choices, don't worry, you can set up your plan as "plan managed" and include "Improved Life Choices" in your budget at your initial planning meeting or review meeting with the LAC supporting you.

Expert Guidance

We know the NDIS inside out. Not sure what that line item is for? Wondering if you can claim something? Our experts are here to support and guide you.

Prompt Payments

We receive invoices and pay them for you so you can save hours each week on dreaded admin. My Plan Manager sorts out the paperwork with your providers, so you don't have to.

Manage Your Budget

We help you manage your budget, keep track of your funds and take care of the reporting for you. Our online portal makes it easy to check your budget.

The Choice is Yours

With My Plan Manager, you can choose any provider, whether they are NDIS-registered or not. This means you can choose the best services for you and your budget.

Signing up with us is simple
